## Vehicle Overview

### 1976 Porsche 914 2.0L in Mars Red-Restored

This is a stunning 914 in Mars Red with Black vinyl and Plaid inserts! This car was owned by a friend and client here at Grand Sport. He restored this car in the late '90's by one of the local air-cooled shops that has a great reputation, I use them myself for my vintage VW's and spent over \$25K (we have many of the invoices)! It was then sold to his neighbor who we have purchased it from. This is a no excuse 914, no expense spared to keep it original, drive it anywhere. Original fuel-injection, correct wheels and trim. This car has had picky maintenance. Note: This car does NOT have rust issues! The black residue shown in the front truck well was the wax-based undercoating/cavity injection used in these cars to protect against rust. We've included close-up photos. Surface rust on the pedal cluster support is shown--this is NOT rust-through on the floor pan! This car has no rust-through, and is a no-pick car. Note, the car is Mars Red, not orange. With flash in our showroom, all red cars appear orange. Note the differences in the pictures. We've not seen a nicer 914 come through our doors. Buy with confidence.
