**Vehicle Description**

*I purchased this car brand new in 1976, the last year 914 was imported to US (I have had 4 of them) and stored it brand new for 7 years and then drove it VERY gently for a little over 24000 miles (appx.1000 miles/year) Now I am retired and aging & would like to sell the car because I may not be able to take care of it. Everything on the car is original except a new muffler, halogen headlamps (I still have the originals) & an electronic ignition (914 is very needy of frequent tune-ups, points and plugs, otherwise). The paint is not factory original. The original finish was white and back in '76 when everything was Bicentennial the dealership manager decided to paint Stars & Stripes on it but the car did not attract any buyers so they re-painted it pearl white (matalic) when I bought it. I have a letter of verification from the dealer to that effect. The car has never been in an accident or in need of a major repair. It has always been garage kept & has seen (unexpected) rain only twice. All service records are available.*
