There is no other 914 available anywhere that is in this cars class. If you understand the value of a true, original paint , collector car, then this is your 914.

1974 Porsche 914 2.0 beyond concours perfection! This particular 914 was the original concours car for Automobile Atlanta, winning every competition they ever entered! See their add current for this car: <http://autoatlanta.com/carsales/914/47423141147/47423141147.html>

Several years ago they wanted to achieve perfection in a 914. At that time new original parts were readily available and the sky was the limit in what could be had.

Starting with a pristine 60,000 original Zambzie Green 914, George began to order new parts starting with five brand new fuchs alloys, every bit of exterior trim and a brand new factory interior – not that this beautiful

car needed any of it, but he wanted everything factory fresh -- for the sport of it! Automobile Atlanta went to the extent of buying four of each part, choosing the best of the best and then installing it on the car. With no expense spared over \$20,000 was spent on the new parts alone.

The result is this spectacular car that shows and drives as new -- making you feel like you're right back in the 1970's.

Since I bought it from AA just over two years ago I have put about 3000 miles on it. Most of the time it sits lonely under cover in my garage. I'm pretty sure this car hasn't seen a drop of rain in 10+ years. Sadly I need the money for a new company I am forming. If you do buy this car, I can promise there will come a day when I call and offer to buy it back.

Note: The state of Georgia has marked the title odometer "exempt". I checked when I bought the 914 and apparently this is standard practice with old cars in GA. Since the speedometer was replaced and reads 3800 the actual mileage can not be confirmed. That said, it "looks and drives" like it has far less than the 65,000 documented.

If you desire the ultimate in 914 perfection, an occasional driver, frequent concours entry and total garage queen, this car is it!
