Vehicle Description

Here is probably the rarest 914 on the planet.....a totally original unmodified 914 with 2 tops original top and the Saratoga top. I AM SO SURE THAT YOU WILL BE SATISFIED IF YOU WIN THE WINNING BIDDER THAT I WILL OFFER YOU A 100% MONEY BACK GUARANTEE OF THE PURCHASE PRICE IF NOT SATISFIED WITHIN 3 DAYS OF RECEIPT OF THIS CAR. ANY TAXES, TRANSPORTATION, REGISTRATION, CAR IN THE SAME CONDITION, car has always been in California, and still retains the California plates with a RARE METAL DELMONTE FOREST ENTRY TAG (for entry into 17 Mile Drive and the Pebble Beach area homeowners). The odometer shows around 2100 miles (2 THOUSAND one hundred). There are no scratches on the paint, no flaws on the interior, perfect chrome, perfect rubber, and the rare luggage rack scratches on the Saratoga Top, and IT STILL HAS THE ORIGINAL PRICE STICKER (with add-ons) AND COMPLETE BOOKS AND RECORDS WITH THE OWNERS MANUAL. The wheels have no depressions and are the best I have ever seen. The dash looks like it left the showroom yesterday. I have owned the car for 5 years and had it stored in Monterey, California only 10 days a year during the Pebble Beach Concours, as I live in Dallas, Texas. Last year I had it shipped in enclosed transport as the storage fees became higher than the cost of having it shipped to California back. This is truly an INVESTOR quality car that will never be found or offered again. The wheels are in perfect condition, and the Spare (with Fuchs wheel) has never been on the ground. The original AM/FM Stereo Radio works perfectly. All of the gauges show no sun fade (including console gauges) and operate flawlessly. The glass has no scratches or pits. The front trunk and trunk are as new. It even has a letter and membership card dated 1973 welcoming the new owner to the Porsche Club, with the Member card mounted with the supplied chrome holder inside the front trunk. If you have EVER thought of having a QUALITY 914 to add to your Porsche collection, or ever wondered what the best that money could buy.....this is it. I have a number of collector cars and I only own top quality cars of breed..and this 914 is absolutely if the THE best certainly one of the absolute top examples I have ever owned.

The engine is the 1.7 liter, starts every time, and runs like a top. THERE IS NO RUST OR AN EVIDENCE WHATSOEVER OF RUST ON THIS CAR INCLUDING THE BATTERY ARE

I can be reached at 469-323-0177 if you would like to discuss this car or to have your representative evaluation/appraisal

As a result of some recent questions...here are the answers

1. The Porsche 914 Club metal medallion on the back is attached to the license plate by means of a small bracket hidden behind the license plate and is attached to the existing license plate hole, but the bracket is visible from the front. The same is true for the Delmonte Forest (Pebble Beach) homeowners tag dated 1973 on the car. There are no modifications to the car in the mounting of these badges.

2. Non factory items...The tires were replaced due to cracking and age as they were dangerous (over 30 years old) but the spare that has never been on the ground is original. The battery has been replaced (obviously). The speakers were dry rotted so they were replaced, but are invisible from the front in the factory speaker holes. The car also had a Bursch exhaust system installed when new as documented by the dealer add ons on the price sticker. The dealer add-ons were as follows...luggage rack (Porsche), Bursch exhaust, hood, rear and steering wheel Porsche crests, Saratoga top.

Additionally, the rear reflector panel was added when new by the dealer.....this is also on the dealer add ons

More answers to questions:

The appearance group included: center console with guages, leather covered steering wheel, leather shi chromed bumpers, fog lights in grill, pile type carpeting, and dual tone horns...please see the window s <http://www.freepichosting.com/Albums/421561950.html>

Fuchs Wheels were available AS AN OPTION on 1.7 engine cars for \$380.00, and were refered to as "ALLOY WHEELS 15 X 5 1/2 See the window sticker at <http://www.freepichosting.com/Albums/421561950.html> These wheels were commonly refered to at the time as the "2.0 wheels"as they were standard on the 2.0 Mahle wheels were ALSO availalbe as an option for \$300.00 and were refered to as "CAST ALLOY V

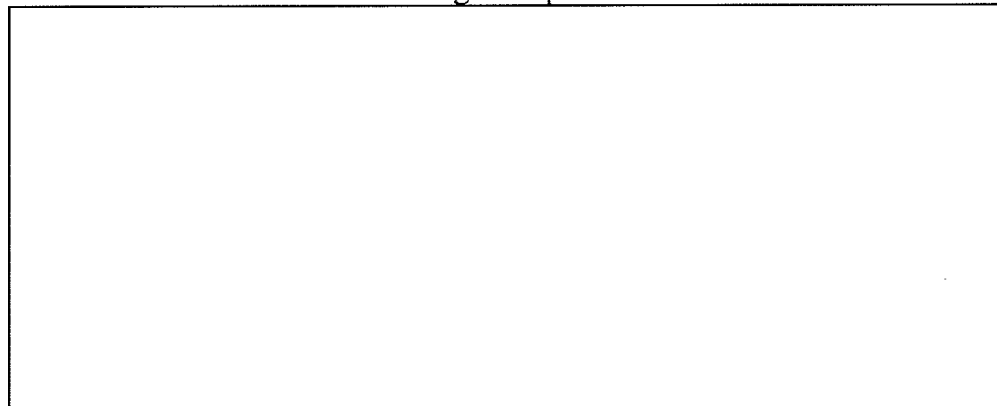

Most of these cars have been so modified and butchered over the years that the effort has not been take accurately research factory originality. I would suggest that anyone in doubt should obtain a copy of th was written on the 914 and do their homework.

Answer to another question: What is that "white stuff" on the top of the shocks in the front trunk?

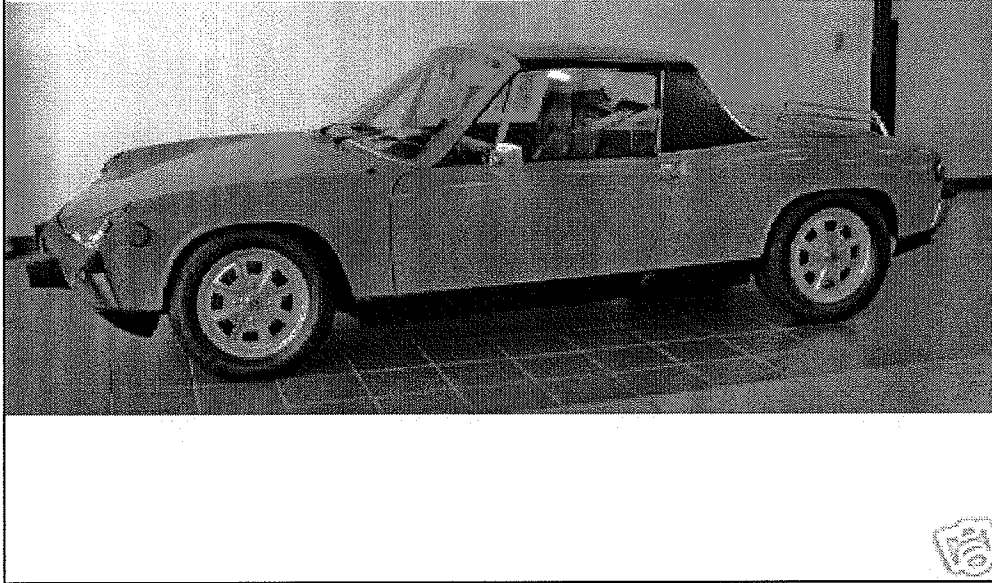

The "white stuff" is actually a dab of paint that is applied when the shocks are installed and torqued to s factory. The fact that the paint still exists across the nut,bolt and hardware show that the front shocks h been removed and are original
