

TA Name: Jake Krans

Section # 01

Informal TA Evaluation

This evaluation is for you to let your TA know, before the end of the semester, what he/she is doing right, and what type of improvements can be made to facilitate learning. The only person to read these is your TA, and possibly Penny Dobbins, if the TA asks for advice. Your TA will decide which, if any, changes need to be made. For anonymity, you may use the computer to type out your response, but **DO NOT SAVE** any evaluation you type. **NO TA WILL USE ANYTHING YOU WRITE AGAINST YOU IN ANY WAY.** This is only being done to let your Lab TA know if there are changes to be made without waiting until the semester is over to make them!

Please answer the following questions in an honest, helpful manner. The more detailed and instructive advice you give, the better the TA can meet your needs.

1. Am I doing a good job giving you hints on how to actually perform the lab?

yes

2. Do I show a good grasp of the theory behind the labs?

yes

3. Am I doing a good job answering theoretical questions? What improvements would you suggest in this area?

yes doing a good job

4. Do I have any bothersome habits I can improve on? (Examples: talks to board, says um too much, etc)

5. Name 3 things you like about my teaching style.

answering all questions, very fair, explanations of labs

6. Name 3 things you would like me to change regarding my teaching style.

its ok.

7. Am I a fair grader?

yes

8. Do I spread out my time between groups well?

yes

9. On a scale from 1 (needs major improvement) to 10 (awesome), where would I rate?

6

10. Additional comments and suggestions:

good job
